

# BOTO Chair

## DESCRIPTION

The holme school chair is a unique combination of modern design and ergonomics. The shape of the chair encourages the user to sit in two positions to relieve the spine and ensure the comfort of long-term sitting. The seat with the backrest is made of FSC-certified natural beech plywood. The frame structure, covered with ecological water-based varnish, is durable and resistant to damage. The chair is available in many colours, including FORBO furniture linoleum.

## SIZE
